

## 2-PACK DOORS AND PANELS GENERAL CARE AND MAINTENANCE

DO	DO NOT
✓ Use a clean, dry microfiber cloth to enhance gloss and remove fingerprints	✗ Leave spills or marks to sit for long periods
✓ Promptly wipe away spills or marks with a damp cloth	✗ Use solvent-based cleaning products
✓ Use mild washing detergent with a soft cloth	✗ Use strongly acidic, alkaline cleaners or bleach
✓ For more stubborn stains clean with any spray and wipe type cleaner	✗ Use scourers or abrasive cleaners

### GENERAL CARE

2-Pack can be a durable surface, but care should be taken to avoid scratching, chipping and staining. Paint chips can be repaired using a touch up kit – usually supplied with the painted panels.

A wipe over with a clean, soft damp cloth should be sufficient to keep the surface clean. Soiled surfaces or light stains can be removed with warm soapy water or with any spray on window cleaning product, then wipe dry with a clean lint-free cloth. Noticeable wipe marks may be removed using Methylated spirits or glass cleaner.

### STUBBORN STAINS

Use mild detergent in warm water to remove stain, or a wax and grease remover, then follow General Care instructions

Please note that the substrate material is HMR MDF which is moisture resistant. Care should be taken to ensure that 2-pack painted doors or panels are not left wet or immersed in water, as potential movement in the substrate may cause irregularities in the paint finish.
